

## Building Name Data Standards

A critical data entry standard exists for building names used for CM (campus mailing) address types. **Banner data integrity can be maintained if, and only if:**

**building names are consistently and accurately entered for each and every CM address**

Building names are entered on Address (Line 2) of the CM address type. Users are restricted to a maximum of 22 characters for building names to allow for inclusion of room information as follows:

**Building Name<space>Rm<space>Number**

### Loss of Data Integrity

When an incorrect building name is entered, mail falls out of the sort and requires manual handling by the Campus Mail Services. For example, the correct spelling for the administration building at UNH is "Thompson Hall" and **\*\*not\*\*** "T-Hall" or "THall" or "ThomHall" or "Thom Hall". When these alternate names are used, mail is sorted into different groupings, potentially causing delivery problems.

To avoid problems arising from inconsistent building names, the following lists contain the official spelling of campus building names for use on Address (Line 2) of the CM address type.

**Only active building names should be used.**

## GRANITE STATE COLLEGE

Street addresses and not building names are used for GSC addresses.

### Active Building Names

In the list below the GSC Office is provided for easy reference. The CM address type entry for GSC should only include the address as specified in the "UNH Mail Service Delivery" column and should \*not\* include the specific GSC Office.

## PLYMOUTH STATE UNIVERSITY

### Student Postal Delivery

At PSU all student mail is sent to the student's HUB Suite Box, NOT to their dormitory. A weekly feed updates the student postal mail address in Banner HR . This feed overwrites existing campus addresses when the first address line contains the text "Student Distribution". This text is an indicator that the campus supplied address from the student system should be used for HR campus mail delivery.

## UNIVERSITY OF NEW HAMPSHIRE

### NOTE regarding student postal delivery.

At UNH all student mail is sent to the student's UNH campus mailing address (Memorial Union, Babcock House, Woodside, The Gables) and NOT to their dormitory. A weekly feed updates the student's campus address and this feed overwrites any existing campus address when the first address line contains the text "Student Postal Center" indicating that the campus supplied address from the student system should be used for HR campus mail delivery.

If a student requests that their check be mailed to their primary hiring department instead of their student's UNH campus delivery address, please follow the CM coding conventions (see Page 26 of The Module 3 Training Documentation for detailed explanation).

### NOTE regarding addresses as building names.

Until buildings are dedicated (i.e., named), street addresses are used as the official building name. These addresses should be used for PPAIDEN entry.
