

### **BTST Instance to be Rebuilt**

The BTST instance is scheduled to be rebuilt from 7/23 through 7/27/2007. During the rebuild users will not have access to this instance. The BPRD backup of 7/21 will be used to create the new BTST instance. Security that is in BPRD will be applied to BTST along with changes to allow STHR's, FAST, and IT expanded privileges.
